INTERACTIVE WHITEBOARD LESSONS ON CD-ROM

The *All About Australia* book series introduces students to a uniquely Australian offering of topics. These titles are cross-curricular, fully differentiated and come with comprehensive IWB lessons. It's a combined use of traditional and new teaching resources.

Each disc follows the themes of the magazine it relates to and contains interactive exercises, covering literacy, science & technology and numeracy.

Created by an experienced teacher, the IWB lessons are designed to reinforce what students read, extending comprehension and other skills. The use of videos, photographs, illustrations and games enhance student engagement. There are instructions for teachers throughout.

All IWB lessons also have a site license offering excellent value!

PRICING TABLE

SINGLE ISSUE PACK (1 x magazine + 1 x IWB CD-ROM)	\$69.99
COMPLETE MULTI PACK, 10 ISSUES (6 x copies of each magazine + 1 x IWB for each issue)	\$798.00
COMPLETE MEGA PACK, 10 ISSUES (30 x copies of each magazine + 1 x IWB for each issue)	\$1700.00

PLUS

INTERACTIVE WHITEBOARD LESSONS ON CD-ROM

Explorers is a fun, high-energy magazine series designed to engage, excite and inspire students. Featuring Australian content, photographs and illustrations and an engaging mix of topics, Explorers is a great base for lesson planning.

Each magazine comes with a set of fully differentiated IWB lessons. They're built so they can be used as an assessment tool and are a fun way to practise for NAPLAN.

Each disc follows the themes of the magazine and the cross-curricular content makes literacy, history, geography, social science, and science and technology fun and relevant.

Created by an experienced teacher, lessons contain games, videos, quizzes, puzzles and much more. All IWB lessons also have a site license offering excellent value!

OUR AUSTRALIA 12 BOOK SERIES

This fiction series written by renowned kid's author Phil Kettle is a celebration of Australia and the people who live here!

Jump aboard the campervan with Taha, an Australian boy of Greek heritage, and his mum. They're off on a journey of discovery that's going to lead them to some of Australia's most fascinating places.

Taha's adventures make compelling reading for all young explorers and, while they are engrossed in the tales of Taha and his mischievous ways, they'll also learn about the geography, history and culture of each region – a new location in every book.

FEATURES OF THE SERIES:

- Geography curriculum – matching people with places, by seeing how an area affects how people live and work.
- Literacy curriculum – using different forms of language including narrative, factual reporting, interviewing, email and letter writing.
- Fun fiction based on fact. With jokes, Australian slang, a glossary and 'fast facts'.
- History, geography, industry, wildlife of each region are featured.
- Written from a kid's point of view. Each book features an interview with a real youngster living in that location, so readers learn about how they live and why they love where they live.
- Author Phil Kettle writes in an engaging way that's crafted to win over even the most reluctant of readers.
- Teacher's notes with every book in the series available at www.australiangeographic.com.au.
